

BARKERS Marquees

Fabric Engineering at its best

Petal Pole Marquee

Marquee Description

Petal Pole Marquees have an attractive scalloped edge which protrudes approx 0.5m from the marquee walling. They have no ridge pole and are supported by King Poles and Wall Poles positioned at 1.5m spacing around the perimeter.

Options

Petal Pole Marquees are available in:

- 6m, 9m or 12m span
- With optional middle sections of 3m, 4.5m or 6m
- Square or Round Ended

Apex Height

The apex height of the Marquee is governed by the King Pole (5" diameter) used. This varies depending on span:

- 6m span using a King Pole which is 14' 6"
- 9m span using a King Pole which is 18' 6"
- 12m span using a King Pole which is 21'

Eave Height

Eave Height is governed by 7' x 2 1/2" diameter high Wall Poles.

Fabrics

We offer Petal Pole Marquees in either PVC or Polycotton Canvas:

- Smooth PVC – Valmex, 650 gsm, or nearest equivalent
 - Textured PVC – STAM 6002, 630 gsm or nearest equivalent)
 - Polycotton Canvas– 470 gsm, or nearest equivalent
- specification sheets can be supplied for each material

Fire Retardancy - All fabrics used comply to BS 7837:1996, DIN 4102-B1

Snowloading

N/A

Wind loading

Maximum allowed wind speed is:

- 31 m/s (70 mph), 3 sec gust – when side walls are installed
- 16 m/s (36 mph), 3 sec gust – when installed without (or partial) side walls

Marquee must be anchored in accordance with manufacturers' instructions and is subject to ground conditions.
